MECHANICS:

Weekly Tournaments (Regular Weeks):

- Each Qualifying Week within the Network Promotion’s Term includes one (1) Weekly Tournament.
- Each Weekly Tournament within the Network Promotion comprises three (3) separate in-game events the results of which go towards the score calculation (each a “**Challenge**”). Each separate Challenge is based on the selected criteria in a Tournament: (i) Challenge #1; (ii) Challenge #2; (iii) Challenge #3.
- In order for players to be eligible to participate in the Weekly Tournaments (Regular Weeks), a real money minimum bet of fifty Euro cents (€0.50) or the equivalent amount in the available currency on the participating game(s) is required (hereinafter a “**Qualifying Bet**”).

- Only the first ten thousand (10,000) Qualifying Bets per day within each Weekly Tournament (the “Qualifying Bets Limit”) will be counted towards as eligible for each Promotion. All Qualifying Bets placed after reaching the Qualifying Bets Limit will not be counted towards each Promotion.
- A player will be awarded points for every Challenge if he/she places real money bets with the minimum bet requirement and meets the requirements of each challenge (as defined below) (hereinafter a “**Qualifying Spin**”):

Challenge #1 – In-game wins

- A win is considered a qualifying win if a player places Qualifying Bets and the total win divided by the total bet is greater than the value of one (1) (each a “**Qualifying Win**”) (for example a player places a one Euro (€1) bet on any of the participating games and wins five Euros (€5), which equates to five (5) ($5/1=5$). This win is greater than the value of one (1) and therefore the Qualifying Bet is considered to be a Qualifying Win).
- The point distribution for each Qualifying Win is given to players as per the table below.

Wins	Points Earned Per Win
Each qualifying win	12

Challenge #2 – Consecutive rounds without any wins

- One (1) round that succeeds another back-to-back round on the same participating game in a Weekly Tournament shall be considered as two (2) consecutive rounds without any wins if a player places Qualifying Bets and the total win divided by the total bet is less than the value of 1 (each a “**Consecutive round without any win**”) (for example the player places a two Euro (€2) bet and wins €0, which equals to zero (0) ($0/2=0$). The score for this round is less than the value of one (1) so this round is considered a round without any win and the player receives nil (0) points. In the next round i.e. back-to-back rounds in the same game, the player places a bet two Euro (€2) and wins €0, which equals to zero (0) ($0/2=0$). This round is less than the value of one (1) so it is considered a consecutive round without any win, and so the player receives one (1) point).
- If a player places Qualifying Bets in a participating game and has Consecutive rounds without any wins, and the player changes the game during gameplay to another participating game, the Consecutive rounds without any wins streak shall pause in the previously opened participating game and shall resume once the player starts placing Qualifying Bets in that specific game if the round results are considered towards the Consecutive rounds without any wins points distribution.
 - In this event, every player who opens a new game shall start earning points with the first round played in the game that meets the criteria to be considered as a Consecutive round without any win. Any game opened during a Weekly Tournament will award players

points starting with the one game round counted towards the Consecutive rounds without any wins.

- The player shall earn points according to the number of rounds played, as defined below.

Consecutive rounds without any wins	Points Earned
1 round without any win	0
2nd round without any win	1
3rd round without any win	2
4th round without any win	3
5th round without any win	6
6th round without any win	9
7th round without any win	12
8th round without any win	15
9th round without any win	18
10th round without any win & more	40

Challenge #3 – Big Win

- A big win shall go towards the tournament score calculation where a player places Qualifying Bets and the win multiplier (win multiplier is calculated as total win divided by total bet for each one round) (“**Win Multiplier**”) is equal or greater to the Win Multiplier values in the table below (*for example a player places €1 bet on any of the participating games and wins €15. In this example the win multiplier of the qualifying bet is 15 (15/1=15) and the player will receive 2 points*).
- The configured win multiplier means the exact number and any higher value up to the next tier.

Win Multiplier	Points Earned
11X	2
21X	3
51X	5
101X	10
501X	20
1001X	50
5001X & more	100

- One Qualifying Bet resulting in a Qualifying Win may award players with points for both Challenge #1 and Challenge #3.
- The points will be given to players for each Challenge for each participating game separately.
- Prizes will be distributed to winners according to their position in the leaderboard, when each Weekly Tournament ends, in descending order from highest to lowest position depending on the player's total score.

- The leaderboard is ranked in accordance with the player's score. The score is based on the total amount of accumulated points that will be granted to a player for each and every Challenge and added to the total number of points received by the player during the Weekly Tournament period.
- In the event that two (2) or more players finish a Weekly Tournament at the same position on the leaderboard, the player who has achieved the score first, will receive the higher prize.
- Prizes are paid out to players as a fixed amount.
- For the avoidance of doubt, any undistributed portion of the prize pool at the end of any specific Weekly Tournament shall be carried forward into subsequent Weekly Tournaments stages or into the next Network Promotion.

How players may participate in Weekly Tournaments (Regular Weeks):

4. The higher the total value of the points received by the player for the in-game Challenges, the higher the player's score.
